#### IV. RESPONSE INFORMATION

##### A. Situation

###### 1. Current Situation

A time-critical removal action has been completed at the Site. Wastes present on site have been separated into OPA-related wastes and CERCLA-related wastes. Disposal of the OPA-related wastes was completed on February 19, 2002, (See POLREP 2). A total of 8 drums were transported by Clean Harbors Environmental Services, INC., and Dart Trucking Company, INC., to Spring Grove Resource Recovery in Cincinnati, Ohio for disposal. The wastestreams generated are identified in the chart below. The remaining CERCLA-related wastes drums with contents found on site have been overpacked and staged for disposal. All small containers found on site have been categorized and consolidated into lab packs for offsite disposal.

###### 2. Site Activities to Date

On August 20, 2002, the action memorandum for a time-critical removal action at the site was signed.

On September 27, 2002, U.S. EPA- OSC Boseman and ERRS mobilized to the site for transportation and disposal of the remaining drums and lab pack containers that had been previously sampled, placed in overpack and staged at the site. A total of 19 drums and small containers were transported by SET Environmental, Inc. to either their facility in Houston, Texas or Superior Special Services, Inc in Phoenix, Arizona for disposal. The wastestreams generated are identified in the chart below. See POLREP 2 for an inventory of the lab pack contents. All waste restricted from land disposal will be treated to conformance with the treatment standards specified in 40 CFR 268.40 and 268.48.
